DOOR SHOWCASE VOL. 3

French Archtop Door with Iron Grilles

- WROUGHT IRON CUSTOM PROFILE GRILLES
- ELECTRIFIED ENTRY DOOR HARDWARE
- CHERRY LUMBER - STAINED & CLEAR COATED
- OBSCURE PATTERN HAMMERED GLASS

The entryway pictured above separates a commercial workspace from a residential loft living space. The building owner personally worked with Parrett to design an entry door system that matched the aesthetics of the newly designed living space.

Browsing through Parrett's extensive design gallery, a previous French door system served as the customer's inspiration for this exquisite archtop door.

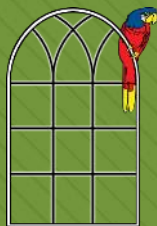

The obscure "heavy hammered" glass provides additional privacy for the residence, and the metal door grilles and beautiful factory stain & clear coated cherry lumber contribute to the high-end appeal matching several other amenities of the residence.

Wrought Iron Door Grilles

As seen in the detail above, the wrought iron door grilles are securely installed into the door system and enhance the already elegant design of the door. A patina finish was applied to accentuate the grille's appearance.

Electrified Door Hardware

An electrified mortise lock was utilized and paired with a residential style entry set. This pairing allowed the door to feature keypad access. The unit also featured adjustable hinges for easy fine-tuning.

DURABILITY, TRUE QUALITY, & SIMPLY BEAUTIFUL EXPERIENCE THE DIFFERENCE!
